DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7,13-20 are rejected under 35 U.S.C. 102(b) as anticipated by Wyatt (US patent 4,083,617)

1. For claim 1-7, Wyatt discloses the electrical connector 10 with housing 12, the rigid electrical contacts at 20 which comprise proximal and distal end and engaging surface. It is inherent to use to different type of engaging surface for the contacts connection base on the invention.
2. For claims 13-20, Wyatt teaches all features mentioned above including the intermediate portion and the web for connecting the contacts.

Response to Amendment

3. The response filed on 4/5/99 under 37 CFR 1.131 has been considered but not persuasive to overcome the rejection of claims 1-7,13-20. The rigid electrical contacts added is also disclosed in Wyatt's system.

Art Unit: 2839

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Conclusion

Claims 8 and 9-12 are allowable because containing features such as the planar rigid contacts with substantially parallel planar engaging surface at the moment of the electrical engagement to permit repeatable electrical engagement with minimal *bounce*.
